## PEELED POTATO

**Hopper 3M**  
Capacity 3m<sup>3</sup>  
Measures 2500x1600x2000mm  
It stores the potato, eliminating feeling on sack

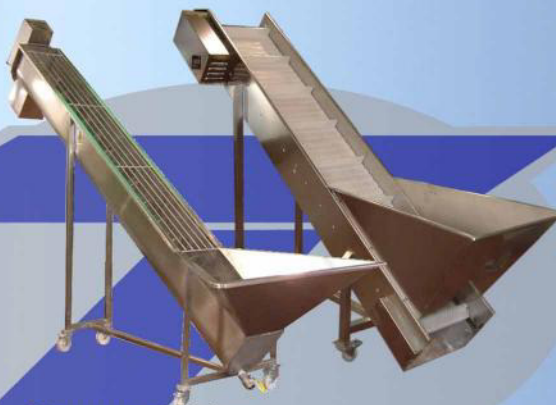

**Peeler with pulley**  
Capacity 1500kg /h.  
Measures Ø800x1030x1490mm  
Easily removeable coating

**Roller conveyor**  
Inspection 360° potato  
Stainless steel rollers or pvc rollers  
Options: work tablet

**Hopper cleaning**  
Measures: 2900x1500mm  
It stores the potato, eliminating feeling on sack

**Hopper Lifting**  
It has bearing and stainless steel frame

**Conveyor weigher**  
Conveyor with electricpanel.  
The potatoes are heavy  
In the hopper and cull send for processing.

**Stoner remover** (2modelos)  
Through endless up potatoes  
and eliminate decantation stones  
and waste.

**Loading hopper** (Varios modelos)  
The product is immersed un water.  
It has a mixer for stir the potatoes

**Vertical lift conveyor**  
This is perfect for small place

# TRAINOMAQ

## CHIPS

**Conveyor product supplier** (defeculadora)  
It has a tank with water. Wheels with brakes optional = Fan.  
Made of stainless steel

**Fryer for potato.**  
mod. 2100 22litros gasoil/120kg chips  
mod. 1870 16litros gasoil/100kg chips  
mod. 1600 12litros gasoil/75kg chips  
mod. 1400 9litros gasoil/55kg chips  
mod. 1200 6litros gasoil/35kg chips

**Exit conveyor**  
Belt with buckets. Wheels with brakes. Opcional: salt shaker made of stainless steel

**Product entry conveyor belt**  
Supplying one on two fryers

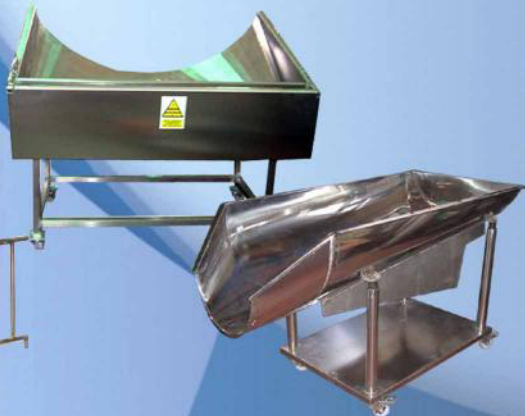

**Ours fryers less consumption, more production** according to model: filtering system; level, hidraulic cylinders, pump, burner, renovable jurniture

**Salt shaker**  
Made of stainless steel regulation of salt.  
Two models

**Cutter centrifuge**  
Since 0'8mm until 3mm of cut.  
Two blades, this blade is easy changer. It's used for drain oil of potato  
Type cut: slice, wavy, stick

**Vibrator** (2modelos s/g líneas)  
Made of stainless steel, with wheels.  
It's used for drain oil of potato

**Bell and tank**  
Made of stainless steel with frame anchored to the floor several measures.

## CONVEYORS BELTS and OTHERS

**Conveyor belt "Z"**  
 Made of stainless steel.  
 with tray for clean up remains  
 wheels and sensors.

**Rotating hopper**  
 It's used to narse the sacks

**Continuous filter**  
 Through a sieve. Expels oil  
 sediment to a reservoir.

**Flavoring machine**  
 Production 600kg/h wheels and  
 measures 2100x1250mm

**Conveyor belt**  
 Made onf stainless stell.

**Metal detectors.**  
 Detected: copper, steel, iron,  
 carbon, aluminum.  
 measures 350x 1500x 850mm

**Black detector potatoes**  
 Removes the black potatoes that  
 are fried.

**Cooler conveyor and accumaloyr**  
 Transports, accumulates, and cooled, the  
 belt doesn't walk until the gap ins't  
 completely filled.

**Sieve**  
 This machine narrow down the  
 product.

## MEAT INDUSTRY

**Conveyor belt for to scorch**  
 This machine is sed fortoburn.  
 The top of the product by eliminating  
 the hair

**Cold meat cutter**

**Cooking kettle**  
 Cook the product  
 Measures: 2500x1000x1200 aproxi-  
 mately  
 made of stainless less

**Cutter meat and formin bag**

**Continuos fryer**  
 It has two belt made of stainless  
 steel, it has filter, wheels, control  
 parel, etc...

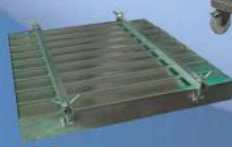

**Espinal binder**  
 This machine is used to more  
 product has bore  
 12000kg aprox.  
 Measure 5000x2300x2160mm

**Carts**  
 Mades of stainless steel several  
 measures.

**Hoppers and mould**

**Wask pipe.**  
 Mades of stainless steel

# TRAINOMAQ

## CHURROS Y PORRAS

**Fryers for churros**  
 These fryers are automatic or manual.  
 There are burner gas, diesel or electric

**Fryer 1000x1000**  
 Consumption 8 liters  
 100l/oil  
 Productuion 50kg/h nuts  
 Made of stainless steel. Tilting  
 basket, wheels, electrical panel...

**Electrical fryers**  
 Fryers with wheels made of  
 stainless steel

**Pop corn machine and  
 automatic batching**

**Skneading machine  
 two type: manual or  
 automatic**

**Manual batching and  
 accessories**

**Chocolate post thermos**

**Colander to made  
 Of stainless steel**

**Churros accessories**

# TRAINOMAQ

## NUTS AND PEEL POTATO

**Feed conveyor**  
Capacity 500kilos aprox.  
Measure 1300x1000x500mm  
It has a hopper for stock up products

**Cooler Metal Conveyor**  
It has several extractors  
Made of stainless steel

**Potatoes cutter and vibrator rods removes cachos**  
Made of stainless steel

**Vibrator hoper**  
Thas tray, and hosed stock up products

**concrete mixer (hormigonera)**  
Capacity 180liter or 320 liter  
Type: manual or automatic  
Made of stainless steel

**Processing Conveyor**  
Belt with water, this machine prevents oxidation of the potato

**Nyt fryer and dispenser.**  
Capacity 300k/h filters, pump...  
Several measures.  
custom manufacturing  
filters, oil levels, burners, multi-fuel,  
metal tapes ...

**Fryer 800x800 30liter**  
With dumper, oil tank, cilnder,  
wheels...

**Drying conveyor**  
It has dryer, wheel, it used for raw potato.

# TRAINOMAQ

## SNACKS LINE

### Loading conveyor

It has vibrator.  
The conveyor supplies the vibrator.  
Measures 2200x1600x800 Wheels,  
product, dispenser fryer

### Flavor mixing drum

Machine of 500mm of diameters, drive engine.  
Measures= 2177x1250x600  
Spiral inside the drum  
Various types: electrostatic energy, air cloud...

### Continuous Fryer.

Measures 2200x600x1000mm  
Made of stainless steel. Belt in stainless . Filter, pump, wheels, burner.  
Production 300kilos/h.  
Consume 6litros/h  
oil filter, oil level ... optional extras

### Cooler drum

Made of stainless -304 AISI 18/8  
Measures 1800mmx650mmx1600mm aprox.  
It has a turbine to extract heat

### Vibrator product collection

Made of stainless steel.  
Measures 1200x500 pick up the product from the fryer and drain oil
